Let's Start!

Let's go back to school to study something new!

Learning Outcome

Understand detailed descriptions of real or imaginary events and experiences in present, past or future and in spoken or written texts.

Ask your partner:

- Would you return to school in the future to continue studying? If so, what would you study?
- Do you like being very busy? Why? Why not?

Can Do Statements

- I can talk about education and character traits.
- I can discuss plans, hopes and expectations for the future.
- I can talk about what I will be doing or what I'm going to do.

Let's Explore!

Vanessa tells Peter about her new plan.

Instructions: Read the text aloud.

- Peter:** Hey V, that's fantastic news! Sounds like the life-coaching was great. What's next?
- Vanessa:** After I register at the college, I'll have a look at the syllabus for each course. I am going to have to buy all the textbooks. I'll be taking five courses and working when my mom comes to visit. I won't have much time for her.
- Peter:** When I have free time, I will take her out for lunch or to the museum. What are the courses you'll be taking?
- Vanessa:** As soon as I register, I will know for sure. It looks like I will take Management of Food Operations, Restaurant Costs and Control, Business Communications and one or two electives.
- Peter:** Sounds great. And where are the classes going to be held. Are they all at the college?
- Vanessa:** Mostly, but I think the Business Communications course will be at the lecture hall in Boston on Tuesday evenings.
- Peter:** I'm going to be working when you are there. Otherwise I would drive you back.
- Vanessa:** That's kind of you Peter. Oh and before I forget, I will be working at the restaurant until it closes when you visit this weekend. I won't have more than an hour to see you. I don't expect we'll be seeing as much of each other, unfortunately. I'll be studying, attending class and working when you are killing time. So while I am working at home you can't come over. I will need to concentrate.
- Peter:** I get it. If summer ever arrives, I'll be sailing a lot. It's too bad you won't have time to crew with me. You'll have your nose in your books.
- Vanessa:** I guess we'll both be running around like headless chickens. Before we get so busy, don't forget we're having dinner at the restaurant tomorrow night!

Learning Points

Future Time Clauses, As Soon As, Until

You use time clauses to give information about time and sequence in future actions.

You use the words *as soon as*, *until*, *If*, *When*, *Before* and *After* in time clauses.

Future time clauses explain what needs to happen or which condition needs to be satisfied before a future event can occur.

You use the first conditional with these time clauses.

Structure:

As soon as/Until/When/Before/After + Subject + Simple Present tense, Subject + will/be going to + Simple Present tense

As soon as means almost at the same time. An action in the future will occur immediately after the action introduced by the time clause finishes.

Example:

As soon as I register, I will know for sure.

Until means for the duration of an action. The action introduced by the time clause will lead to another action once it is completed. You normally use *until* after the main clause.

Example:

*I'll keep coming to this class **until** I hear from the registrar's office.*

Before means at an earlier time.

After means at a later time.

If means on the condition that ...

When means at the time of doing something.

Examples:

- **After** *I register at the college, I'll have a look at the syllabus for each course.*
- *Oh and before I forget, when you visit this weekend, I will be working at the restaurant **until** it closes.*
- **If** *summer ever arrives, I'll be sailing a lot.*

Learning Points

Future Continuous for Interrupted Action

You use the Future Continuous tense to talk about something happening at a particular time in the future. The action in the future is often interrupted by another action.

The action will have started before that moment but it will not have finished at that moment. When you use the Future Continuous, a future action can also be interrupted by another one.

For example:

I'll be taking five courses when my mom comes to visit.

The ongoing action (taking five courses) is going to be interrupted the mom's visit.

There are two ways to use the Future Continuous tense:

- You use the Future Continuous to indicate that a longer action in the future will be interrupted by a shorter action in the future.

Structure: will + be + present participle of the verb

I will be working at the restaurant when you visit.

- You use the Future Continuous to express the idea that two actions will be happening simultaneously. You use two Future Continuous actions in the same sentence.

Structure:

am/is/are + going to be + present participle

Example:

***I'm going to be working** and studying when you're **going to be killing** time playing computer games.*

Examples:

- *I'm going to be working when you are there.*
- *I'll be studying, attending class and working when you are killing time.*
- *I will be working at the restaurant.*
- *I'll be taking five courses and working when my mom comes to visit.*
